

## eryica training system

The European Youth Information and Counselling Agency (ERYICA) is a leading actor in developing, supporting and promoting quality generalist youth information policy and practice at all levels.

Our training system is in service of these aims and it was developed with the needs of our diverse network in mind. By now ERYICA offers trainings for a variety of target groups.

ERYICA developed a coherent training system that so far consists of 5 courses:

european youth information  
and counselling agency

## yintro

**YIntro – Stepping into Youth Information is the basic training course** of ERYICA in the field of Youth Information. It covers the core areas of knowledge and skills needed for youth information work and is meant to be an introduction to the field.

**Target group:** beginner youth information workers.

**Among others, the course intends to** introduce the relevant areas, competences and skills of youth information and to introduce the basic key principles and background of youth information work.

**Duration:** 5 days

## digital yintro

The course is an additional module to the YIntro and focuses on **online and digital youth information**.

**Target group:** youth information workers.

**Among others, the course intends to** introduce relevant areas, competences and skills within Digital Youth Information and to offer a basic course on specific skills and tasks when working with young people in digital environments.

**Duration:** 2.5 days

## webbie workshop

The purpose of the workshop is to make young people discuss their online habits, gain awareness on the levels of the quality of information that are online and to learn how to be active producers of online content in times of Web 2.0.

**Target group:** young people.

**Webbie Workshops can be led by any youth information worker and youth worker.** The description of the activities can be found in the **Guide to Safety and Quality Online** (downloadable at [www.eryica.org](http://www.eryica.org)).

## jimmy

The **Jimmy – Youth Information Mediator** training course intends to endow youth workers with basic skills for the provision of youth information.

**Target group:** youth workers.

**Among others, the course intends to** introduce participants what youth information is and to make them discover the link between youth information and youth work.

**Duration:** min. 2 days

## advanced yintro

The course intends to **further develop skills and competences**, as well as to broaden expertise on a more abstract level of Youth Information.

**Target group:** experienced youth information workers.

**Among others, the course intends to** further develop the professional skills of youth information workers and to provide continuous professional development.

**Duration:** 2x2 days
